INTRODUCTION

Throughout March 2024, Golden Plains Shire Council undertook a new community engagement process seeking feedback on the new Disability Action Plan 2025-2029. This report outlines the process and feedback received which has informed the development of the Disability Action Plan Strategic Framework 2025-2029. The framework outline's themes to create a municipality that is more accessible, inclusive, friendly and supports full participation of people with disabilities. NEXT STEPS

Council acknowledges that at the time of the Community Engagement, community feedback that was gathered was to be used to inform the development of the draft *Disability Action Plan 2025-2029*. However, upon review of the feedback and recommendations, Council has proposed a draft Disability Action Plan Strategic Framework as opposed to an action plan. The framework will allow actions to be embedded into the Council Plan and reported on annually.

The framework will guide the actions Council will commit to that aim to reduce or remove barriers experienced by people with disabilities.

The draft Disability Action Plan Strategic Framework will be presented to Council in June 2024 to be endorsed for public exhibition and will then be released for public comment for a four-week period. Recommendations will then be presented to Council for consideration before a final document is proposed for adoption in August 2024.

Council will continue to engage with the community throughout the lifespan of the Disability Strategic Framework to track our progress on becoming a more inclusive and accessible community.
