DEVELOPING THE VISION

The Golden Plains Shire Community Vision 2040 is a plan that captures the hopes and aspirations of the whole community, and ensures we are planning a bright future for all.

The Community Vision outlines how everyone in the Golden Plains community can work together towards common goals and meet the Shire's needs, both now and into the future.

The project to develop a Community Vision commenced in July 2019. Council Officers embarked on a broad engagement program with the community to capture the diverse perspectives of Golden Plains' residents and a dedicated Community Reference Group (CRG) was formed to assist with the engagement. In October 2020, 11 CRG members from across the Shire joined Council staff to undertake engagement training and co-design workshops for the Vision project. The CRG then captured input for the Vision from residents across the Shire during February and March 2020. Initiatives included events, community conversations, postcards, online surveying, newsletters and a dedicated student session at Bannockburn P-12 College.

ENGAGING THE COMMUNITY

The engagement focused on 4 key questions:

What I love about Golden Plains is...

My hopes for Golden Plains in 2040 is...

What I would like to see in my community in 2040 is...

To make this a reality I am willing to...

More than 530 responses (representing over 2.3% of the Shire's population) were gathered from a range of age groups, demographics and locations. This information was presented to Council and the community through an Engagement Update in April 2020. The CRG then sorted the data into a series of Themes and Priorities that would provide the framework for the Community Vision 2040. This was documented and presented with a series of Vision Statements to form a Concept of the Vision for further community testing in June 2020. The Concept was distributed and tested with community groups, networks and stakeholders who were given opportunities for feedback and further input offered via an online survey in July and August 2020.

COMMUNITY VISION 2040 REFRESH

In January to March 2024, Golden Plains Shire Council undertook a community engagement process seeking feedback on the current Community Vision 2040. More than 400 people provided feedback through this engagement which sought to understand if the Community Vision 2040 still represented the communities perspectives. The results showed 95% of respondents believed there were no themes or priority areas of the current vision that were no longer applicable. Based on the feedback received, the original document has been refreshed with only the minor changes included from suggestions by residents.
